PERMISSION FOR THE ABOVE TO ATTEND THE CLUB : _____
(Please sign)

Turn over - there is stuff on the back!

EVERYTHING ELECTRONIC CLUB RULES

1. The Club is open to those age : 10 to 21. (8 to 10 years old's must be either known to us from the Science Clubs or we have in advance agreed they may attend. They must be accompanied by an adult who is responsible for dealing with any excessive desire to run about madly.)
2. Parents/carers who wish to attend the Club are welcome but must be accompanied by their youngster to vouch for them.
3. Other adults may attend as volunteers but will need to register with us as such and be PVG checked.
4. Please be careful with the equipment. Any Member who breaks a major piece of kit will be required to find a funder and write a funding application to replace it, before they can use it again!
5. No alcohol or drugs are allowed in the Club.
6. Members must follow all health and safety instructions.
7. We have two vulnerable groups in this Club for which we all have a duty of care :
 - Those age under 18
 - Some of us old fogies who help run it. So please note :
 - We expect you to stay positive and supportive of other Club Members whilst in the Club.
 - We expect you to behave appropriately. If you have any doubts what that means, then see the Club organisers and we will explain it to you.
 - For child protection reasons we do not allow accessing games which are PEGI 16 or higher or any inappropriate on-line content.
 - If you live locally, please arrive early (from 6 pm) and help us set-up.
8. We reserve the right to exclude any Member or Volunteer who does not abide by the rules.

SO WE CAN PUT PEOPLE IN TOUCH TO CAR SHARE, WHERE ARE YOU COMING FROM ?

(Locality only - we don't hold addresses). _____

DO YOU WANT TO SIGN UP FOR SPECIFIC UPCOMING ACTIVITIES? :

Introduction to Scratch Coding Course : Starting on 16th September : If you have only occasionally done Scratch at school, or have never done any coding at all, this is the one to choose. Scratch is a fun drag and drop coding language which helps you learn all the basics of how to design and write code. It allows you to design cartoons, games and quizzes.

I would like to attend this course (please tick)

Introduction to Python Coding Course : Starting on 9th September : This is aimed at experienced Scratch coders and allows you to transition to a commercially used language. (It is harder than Scratch and it takes a certain amount of patience to become a good coder using Python. If you have never coded before start on Scratch.)

I would like to attend this course (please tick)

Air Monitor Workshop : On 7th October : This workshop will have limited numbers. Those participating will be building an air quality monitor for placing around this area to monitor air quality.

I would like to attend this workshop : (please tick)
